

Year 11 Destination Data 2021

This year group have risen magnificently to the challenge of coping with eighteen months of hybrid learning as a result of the global pandemic. We are greatly impressed by their resilience and strength during this time adapting to home learning and being back in the classroom, albeit with covid measures in place. Their drive and determination has been admirable as they worked through their assessments to secure their GCSE assessed grades. We are very proud and delighted that they have achieved truly exceptional grades as a result of their dedication and hard work. Spiritually, emotionally, academically and pastorally, these young people have developed enormously over their five year journey to date. We are especially pleased to be welcoming so many back into our Sixth Form; studying a wide and diverse range of courses, and preparing themselves for the wealth of opportunities for life after Sixth Form.
