- to provide medical advice for pupils through the school nurse
- to provide communication channels for staff and pupils to participate in and feedback on school development
- to operate systems which reduce the likelihood of stress, identify problems at an early stage, and which respond to the needs of the individual
- to provide a range of healthy eating options
- to ensure that the curriculum supports and develops a healthy lifestyle for pupils.

### **Evaluation:**

The surveys that are integral parts of the school's framework of self-evaluation will record high levels of satisfaction from staff and pupils. Attendance will also be high.
