

Our ICT Vision

Develop skills to confidently and competently use ICT in a safe environment

Use ICT to equip learners for their future working lives

Utilise ICT to support the inclusion agenda

Provide opportunities for new technologies and activities which improve the quality of students' learning

Ensure that ICT is integral to school life and is embedded fully across the curriculum

Use ICT to allow for collaborative working and online access to curriculum and teaching resources

Develop our community links through sharing of our resources

Improve the efficiency of school administration tasks and communication with parents through the use of our website

Continue to support the professional development of staff as a way of positively promoting ICT in our School

Use ICT to enable us to reduce our workload and support teaching and learning.
