

Year 11 Mock Interviews 2023

Year 11 Students will have their mock interviews on Thursday 7th December 2023. Mock interviews are important in young people's career development as it seeks an opportunity for students to practice, receive feedback and improve their interview skills in readiness for the outside world. They can help students develop their interview strategies, enhance their communication skills, answer challenging questions on the spot and hopefully by with this experience, they can ease any nerves that many young people experience before an actual college, sixth form or job interview.

Here are some mock interview questions you can practice at home!

- What would you say is your greatest strength? Can you give an e.g. of how you have used this in a team situation?
- What was the biggest challenge you faced whilst on your work experience in Year 10?
- When have you been most proud of feedback you've received from a teacher?
- Have you been given some advice / feedback about how you can develop further?
